

A-Mark Precious Metals Reports Fiscal Second Quarter 2015 Results

SANTA MONICA, Calif., Feb. 9, 2015 (GLOBE NEWSWIRE) --[A-Mark Precious Metals, Inc.](#) (Nasdaq:AMRK), a full-service precious metals trading company, reported results for its fiscal second quarter and six months ended December 31, 2014.

Fiscal Q2 2015 Overview

- Revenues totaled \$1.54 billion, up 6% from the prior quarter, driven by an increase in silver ounces sold.
- Revenues totaled \$1.54 billion, up 3% from the same year-ago quarter, driven by an increase in silver ounces sold.
- Gross profit increased 26% from the quarter ended September 30, 2014 as compared to the quarter ended December 31, 2014, driven by improved market conditions.
- Gross profit decreased 9% from the quarter ended December 31, 2013 as compared to the quarter ended December 31, 2014, driven by stronger market conditions during the year-ago quarter.
- Development of the Las Vegas logistics center remains on schedule for opening mid-2015.

Fiscal Q2 2015 Financial Results

Revenues increased 6% to \$1.54 billion from \$1.45 billion in the prior quarter, and increased 3% from \$1.49 billion from the same year-ago quarter. The increase was due to an increase in silver ounces sold, partially offset by a decrease in gold ounces sold as well as a decrease of both gold and silver commodity prices.

Gross profit increased 26% to \$7.2 million (0.47% of revenues) from \$5.7 million (0.39% of revenues) in the prior quarter, and decreased 9% from \$7.9 million (0.53% of revenues) in the same year-ago quarter. The sequential increase in gross profit was due to an increase in silver ounces sold, which resulted from the higher volatility of gold and silver commodity prices. The decrease from the year-ago quarter was due to a decrease in premium spreads.

Selling, general and administrative expenses increased 13% to \$4.8 million compared to \$4.2 million in the prior quarter, and up 6% from \$4.5 million in the same year-ago quarter. The increases were primarily due to operational costs related to the development of the company's new logistics center established to provide fulfillment services to A-Mark customers. Expenses were also higher due to increased costs associated with being a public company since March 2014, including the addition of key personnel and legal and accounting fees and expenses.

Net income totaled \$1.7 million or \$0.24 per diluted share, up 46% from \$1.1 million or \$0.16 per diluted share in the previous quarter, and down 26% from \$2.2 million or \$0.29 per diluted share in the same year-ago quarter. The sequential improvement was due to an

increase in premium spreads, while the decrease from the year-ago period was due to lower gross margins related to lower commodity price volatility.

Fiscal Six Months 2015 Financial Results

Revenues were \$2.99 billion, improving marginally from \$2.98 billion in the same period last year. The increase was primarily due to the increase in silver ounces sold, partially offset by a decrease in gold ounces sold and the decrease of both gold and silver commodity prices.

Gross profit declined 13% to \$12.9 million (0.43% of revenue) from \$14.9 million (0.50% of revenue) in the same year-ago period. The decrease reflected the lower premium spreads on the company's primary products, offset by sales of higher margin value-added products.

Selling, general and administrative expenses increased 10% to \$9.0 million from \$8.2 million in the same year-ago period. The increase was primarily due to greater operational costs related to the development of the logistics center as well as costs associated with being a public company.

Net income totaled \$2.8 million or \$0.40 per diluted share, declining by 39% from \$4.6 million or \$0.59 per diluted share in the same period last year. The decrease in net income was primarily due to lower gross margins.

Management Commentary

"Our revenue and gross profit improvements in fiscal Q2 were primarily driven by increased precious metals volatility," said Greg Roberts, A-Mark's CEO. "Our financial performance during the quarter reflects the potential of our business model, which is structured to provide consistent profitability in any market environment, while offering opportunities for significantly increased revenue and gross margin when we see volatility return to the precious metals market.

"We continue to rapidly increase our value-added products pipeline and services, which enhance our gross margin and profitability profile. In step with this, we are working to further expand our capacity to handle the increased demand that will inevitably return when volatility increases across all of our lines of business."
